# Fort Pitt tunnel detours

Starting March 28, inbound Parkway West motorists heading into Downtown or to the Parkway East will drive through the outbound side of the Fort Pitt Tunnel. Once drivers emerge from the tunnel, they will have three options on the Fort Pitt Bridge. The left lane links to the 10th Street Bypass. The center lane ends at Liberty Avenue and Commonwealth Place, Downtown. The right lane takes drivers to the Parkway East outbound or to a Grant Street exit ramp.
